Dear Mr. Lummis -

I am much interested in your note and the printed advertisement of "Spanish Songs of California." Unfortunately I have to limit my own purchases to books needed in the profession, but I shall call the book to the attention of the University Librarian, though presuming he has already ordered it for the Library.

Very truly yours,

Department of History.

• Dear Prof. Adams:

Thank you for your courteous note and your interest in my Spanish Songs of Old California. Of course I realize the limitations of a specialty. But these Songs are part of California history too, and perhaps you will be able to interest some of your friends in circulating them.

With best wishes,

Sincerely Yours,
